

## DECUMANUS FINAL WORKSHOP

### DEVELOPMENT AND CONSOLIDATION OF GEOSPATIAL SUSTAINABILITY SERVICES FOR ADAPTATION TO ENVIRONMENTAL AND CLIMATE CHANGE URBAN IMPACTS

CIBELES PALACE, MADRID, 20th MAY 2016

#### The event

Integrated urban governance and planning of the cities and regions of Europe is universally identified as crucial to the economic recovery and sustainable development of Europe.

DECUMANUS is dedicated to provide the necessary urban intelligence for this purpose, and aims fundamentally to secure the more effective governance of the cities of Europe, targeting the needs of urban planners, policymakers, politicians and private companies, to secure and apply enhanced intelligence in the decision-making process that underpins the management of cities.

This final Workshop is dedicated to present to the potential users and customers the benefits, the potentiality and the immediate integration with arising trends and technologies of the Decumanus portfolio, which currently includes more than 90 products.
